

Green Oak in Construction

A new publication entitled "Green Oak in Construction -An illustrated technical guide to the use of oak in modern structures", has just been published by TRADA. This book is aimed at architects, specifiers, engineers and their potential clients. It will give them all confidence that it can be done, information on how to do it and to inspire them to want to do it.

Price Â£65 + P&P (Â£45 + P&P for TRADA members) from www.trada.co.uk/bookshop. Edited pdf's also available to download from: www.forestry.gov.uk/forestry/infd-6b2jfb
